

Reviewer Guidelines

To apply as a reviewer, please attach your CV and email it to the Editor-in-Chief, whose contact information is available at the following link:

<https://sjms.shmu.ac.ir/index.php/ijhs/about/editorialTeam>

Review Process Instructions:

1. **Notification:** When a manuscript is assigned to you for review, you will receive a notification email.
2. **Login:** To review manuscripts, log in to the journal website at [[Login URL](#)] using your username and password.
3. **Dashboard:** You can view the status of your assigned manuscripts under the “Submissions” section. New tasks will appear in the “Tasks” section at the top-right corner of Here is the professional translation of your reviewer guide into English, structured for clarity.
4. **Starting the Review:** To begin, locate the manuscript under “Submissions” and click “View” to enter the review workflow.

The screenshot displays the Shahroud Journal of Medical Sciences website interface. The top navigation bar includes the journal name and a 'Tasks' button with a notification badge showing '12'. The left sidebar contains a 'Submissions' tab, which is highlighted by a red arrow. The main content area is titled 'Submissions' and features a 'My Assigned' section. This section lists three manuscripts with their titles, response and review due dates, and a 'View' button. A red arrow points to the 'View' button for the first manuscript, 'Engineered Exosomes in Cutaneous Regeneration: Biological Mechanisms, Therapeutic Applications, and Clinical Transla...'. The second manuscript, 'Comparison of the effects of eucalyptus extract and Cynodon dactylon extract on the i...', has a 'Review' button and a 'View' button. The third manuscript, 'Investigation the Effect of Betaine and Cynodon dactylon on Treatment of Nonalcoholic Fatty Liver Disease in Rat Model', also has a 'View' button.

Step 1 (Response): If you are unavailable to review, please click **“Decline.”** If you are available to review, please check the box: *“Yes, I agree to have my data collected and stored according to the privacy statement”* and proceed.

Request for Review

You have been selected as a potential reviewer of the following submission. Below is an overview of the submission, as well as the timeline for this review. We hope that you are able to participate.

Article Title

Engineered Exosomes in Cutaneous Regeneration: Biological Mechanisms, Therapeutic Applications, and Clinical Translation

Abstract

Exosomes have emerged as promising cell-free therapeutic agents in regenerative medicine owing to their ability to mediate intercellular communication and modulate tissue repair processes. Recent advances in exosome engineering have further enhanced their therapeutic potential for skin regeneration and wound healing. This review summarizes current evidence regarding the biological functions of natural and engineered exosomes in cutaneous repair, with a particular focus on their effects on fibroblast proliferation, angiogenesis, extracellular matrix remodeling, and immunomodulation. Mesenchymal stem cell-derived exosomes have demonstrated significant regenerative

substantial potential for improving skin regeneration and wound healing; however, further mechanistic studies and well-designed clinical trials are required to establish their long-term safety and therapeutic efficacy.

Accept Review, Continue to Step #2

Decline Review Request

Step 2: Click “Continue.”

The screenshot shows the Shahroud Journal of Medical Sciences website. The header includes the journal name and a notification bell with 12 alerts. The left sidebar contains navigation links: Submissions, Statistics, Articles, Issues, Journal, Editorial Activity, and Users. The main content area displays the title of the review: "Review: Engineered Exosomes in Cutaneous Regeneration: Biological Mechanisms, Therapeutic Applications, and Clinical Translation". Below the title are four tabs: 1. Request, 2. Guidelines, 3. Download & Review, and 4. Completion. The "2. Guidelines" tab is active, showing "Reviewer Guidelines" with the text: "This publisher has not set any reviewer guidelines." At the bottom right of the guidelines section are two buttons: "Continue to Step #3" and "Go Back".

Step 3 (Evaluation): Under the “Review Files” section, you can download and read the manuscript PDF.

Submitting Comments: You may submit your review comments either by typing them directly into the “For Editor and Author” text box, or by uploading a document in the “Reviewer Files” section.

Recommendation: Finally, select your decision in the “Recommendation”

The screenshot shows the same Shahroud Journal of Medical Sciences website, but now at Step 3: Evaluation. The "3. Download & Review" tab is active. The "Review Files" section shows a table with one entry: a PDF file named "1631.pdf" with a size of "13790" bytes, dated "September 20, 2026", and labeled "Article Text". A red arrow points to this section. Below the "Review Files" section is a "Review" section with the instruction: "Enter (or paste) your review of this submission into the form below." Below the "Review" section is a "For author and editor" section with a rich text editor toolbar containing icons for undo, redo, bold, italic, underline, link, unlink, code, list, image, and a dropdown menu. A red arrow points to this section.

Upload

Upload files you would like the editor and/or author to consult, including revised versions of the original review file(s).
